

SPORTYPLAYBODY £250 per week (20 hours)

If you've got what it takes to organise sport and play for children aged 3-11 then we want to hear from you. We're looking for outstanding individuals with a passion for sport and play to become **Centre Managers** at Kids' City.

We're a playful bunch

Between 3pm and 6pm we manage to pack in loads of activities with children aged 3-11 and sport is top choice for most. Our **Centre Managers** organise an outstanding experience from start to finish.... Mums and Dads complain that their children don't want to leave.

And the point is.....

In inner city areas where we work, children need spaces to play and friends to play with. We take over areas of schools and turn them into little cities for kids (hence our name) Find out what we get up to and why – look at our annual report and other info at www.kidscity.org.uk.

Joining our team

To become a **Centre Manager** you need a playful personality, lots of energy, and a level 4 or higher qualification in any relevant area (see list at the end). You will have had two years experience in a leading or management position – not necessarily with children - and be ready to make a flying tackle against childhood obesity.

It's not just for fun!

It's also for £12.50 an hour for 20 hours a week, (15 hours with children, 5 in prep and admin) plus paid holidays. You can choose to work term time only or all year round. Uniform, iPhone and laptop is provided, as is continuous professional development, fortnightly meetings with other managers, free social events and your own children aged 3-11 can join in the fun at highly subsidised rates.

What does a Centre Manager do?

They manage a team of staff and volunteers to:

- Plan and deliver fun activities with a purpose
- Provide children with healthy snacks
- Replenish and maintain materials and equipment
- Build relationships with families and schools
- Market the provision
- Meet 'Outstanding' or 'Good' Ofsted standards in all areas of service.
- Collect fees and manage a budget
- Help develop the charity by sharing ideas

Hit your targets!

While you help build children's futures, we'll help you hit your own career targets. Recent employees have gone on to managing sports events, starting their own sport business and running a children's football team.

Take the challenge!

If you're in for the big challenge of making a difference to inner city children's lives, find out more www.kidscity.org.uk/jobs/default.aspx and apply.

If you would like to discuss this role further please contact Jackie Nunns on 020 8683 9601
